Agency of Education

March 8, 2013

Dear Principals,

In 2000, Vermont passed Act 125 creating the Envision – “Promoting Healthy School Environments” – Program. The Envision Program is administered by the Departments of Health, Education, and Buildings & General Services, and helps schools improve environmental health and indoor air quality through no- and low-cost management strategies. The Envision Program provides:

- model school policies and plans
- environmental health walkthroughs
- technical assistance on specific topics
- radon testing, and
- grant opportunities (when funding is available).

I would like to ask for your help to improve the Envision Program by taking a brief survey about your school’s level of participation in the program and your school’s environmental health management practices and policies. This short survey can be accessed through the following link:

<https://www.surveymonkey.com/s/VermontEnvision>

Thank you for your time,

Armando Vilaseca
Secretary of Education
